SUPPLEMENTAL CONDITIONS/INFORMATION AND/OR SKETCH OF JOB CONDITION

BASIS FOR APPROVAL-INFORMATION

For the Superintendent of Building or his designated agent to approve a request for modification or a request for alternate material or method of construction he must determine that special, individual reasons exist that make compliance with the strict letter of the ordinance impractical and that equivalency is provided for requests applicable to the State Housing Law. The resulting condition must be in conformance with the spirit and purpose of the ordinance involved. The applicant must provide sufficient information with this application to allow the above evaluation to be made.

**INFORMATION ON PROCEDURE FOR APPEAL FROM
A DETERMINATION OR ACTION BY THE
DEPARTMENT OF BUILDING AND SAFETY**

Appeal from the determination or action of the Superintendent of Building or his designated agency may be made to the Board of Building and Safety Commissioners. To appeal, the appellant must give special individual reasons that make compliance with the strict letter of the ordinance impractical. Appeals pertaining to State Housing Law provisions require complete evidence to substantiate that the proposed design, material, or method of construction is at least equivalent to that prescribed by the Code. State such reasons or evidence on the front of this form or on a separate attachment.

Permit Application Number _____

Job Address _____

CONDITIONS OF SUMP PUMP APPROVAL

1. Obtain written approval from the Department of Public Works for the discharge of water from the sump pump to the street prior to permit issuance.
2. The use of the sump pump system for the discharge of water to the street shall be limited to drainage from the _____.
3. All drainage from any roof, deck, and site areas; which are above the lowest street elevation, shall be conducted to the street via non-erosive devices by gravity flow.
4. At each sump pump location, a two-pump system shall be installed in such a manner that, if one of the pumps becomes inoperable, the other pump will become operative automatically. Each sump pump shall contain an early warning device which will be activated by a pump's malfunction.
5. The owner has recorded a covenant with the County's Recorder's office agreeing to maintain the sump pump system in proper working order at all times. The completed and recorded affidavits are attached.
6. The sump pump system shall be designed based upon a rainfall of 2 inches per hour (Plumbing Code requirement).
7. Obtain mechanical and electrical permits prior to the installation of the sump pump system.
8. Provide a back-up dispersal wall(s) constructed as follows:
 - a) Construction shall comply with Figure F as shown on the 2014 LABC, Code Section 7013.7.
 - b) Construction shall be as shown on _____.
 - c) The invert elevation of the continuous concrete pad behind the dispersal wall shall be level from end to end and follow the contours of the slope. Furthermore, the ends of the concrete pad shall be enclosed to prevent water from discharging out of it.
 - d) The wall length shall be equal to the length of the disturbed contours or _____ feet.
 - e) Drainage discharge from the dispersal wall shall be on undisturbed natural materials or certified compacted fill.
9. A natural gas/propane powered generator shall be provided that will automatically power the sump pump system in the event of an electrical power failure.
